Motivated and detail-oriented computer engineering student with knowledge of java and python, currently pursuing Data Science. Passionate about developing innovative solutions like document automation and student systems. Seeking an opportunity to apply my technical skills and contribute effectively to organizational growth

Skills

Technical Skills

- Java
- Data science
- Python
- SQL

Soft Skills

- Problem Solving
- Team Collaboration
- Adaptability
- Communication

Education

Pillai HOC College of Engineering and Technology,

BE in Computer Engineering

- Rasayani

J.S.M Jr.college , HSC in Science 77.00%

- Alibag, Raigad

Indian Education Society School , SSC 92.40%

- Alibag, Raigad

2023 – present

2021 – 2023

Projects

Academic Evaluation System: Web-based student performance and placement management portal

- Developed a role-based web application to manage student marks, attendance, and placement eligibility.
- Implemented three user roles — Admin, Faculty, and Student — for secure and structured data access.
- Faculty can manage academic records and evaluate placement readiness based on CGPI and extracurricular activities.
- Students can log in to view performance reports and placement qualification status.

DocuFree: AI-powered document simplification and accessibility platform

- Designed an intelligent system to simplify complex documents for better accessibility and inclusion.
- Integrated OCR to extract text from PDFs and images for AI processing.
- Utilized Google's Gemini AI and NLP for summarization, term simplification, translation, and Q&A interaction.
- Incorporated Text-to-Speech for visually impaired users and export options for formatted PDF output.

Hobbies

Culinary Exploration: Always eager to experiment with new technologies, and learning new coding techniques.

Sports: Passionate about physical health and sports like Kabaddi and Cricket.
